SPECIAL PROVISION
FOR
MICRO-SURFACING CORRUGATIONS (RUMBLE STRIPS)

CFS:KPK

1 of 1

APPR:CJB:JWB:09-19-12
FHWA:APPR:09-19-12

a. Description. This work consists of placing micro surfacing over corrugations (rumble strips) and establishing new corrugations (rumble strips) as required. Ensure the work is in accordance with section 822 of the Standard Specifications for Construction and as detailed on the plans and/or proposal.

b. Materials. None specified.

c. Construction.

1. Shoulder Corrugations. Fill the corrugation area with a separate pass of micro surfacing prior to application of the top course. In all cases, it is the responsibility of the Contractor to fill the corrugations (rumble strips) adequately to allow new corrugations (rumble strips) to be established.

2. Centerline Corrugations. Determine the method of filling in the existing corrugations (rumble strips). It is the responsibility of the Contractor to fill the corrugations (rumble strips) adequately to allow new corrugations (rumble strips) to be established.

d. Measurement and Payment. The completed work for micro-surfacing corrugations (rumble strips) will not be paid for separately, but is included in associated items. The establishment of new corrugations (rumble strips) will be paid for separately and is not included in this special provision nor in the pay items for **Micro-Surface, Warranty or Micro-Surface, Single Cse, Warranty.**
